

BIDEFORD

MEDICAL CENTRE

Why do we need to share information about you?

To help give you the best care possible, sometimes we will need to share information about your visits and treatment. This is to make sure we know enough about your needs to support you. We have special rules that we must follow, which protect your information and keep it private and secure.

If you want to know more about how we may share your information and who we share the information with, please email bideford.systmone@nhs.net and in the subject line please mark for the attention of Mrs Zoe Smale – or contact her by telephone on 01237 476363.
